

SAHS October Program:

BEWARE

Come join the **San Antonio Herb Society** when we explore the world of **poisonous plants**. **Brad Wier**, of the **San Antonio Botanical Garden**, will be our guest speaker. Brad will describe what inspired him to explore the world of poisonous plants while he brings a historical perspective and some practical information about this very interesting area of botany. Be ready to be surprised as you learn about plants and herbs that you thought you knew all about.

A native of San Antonio, Brad has been with the Botanical Garden since 2006 where he has responsibility for the formal gardens and the native areas. Brad is also active in research & development for the Botanical Gardens. Prior to moving back to San Antonio, Brad lived in New York City where he worked for the Bronx River Alliance and participated in various projects such as the restoration of the Bronx River Corridor and Bette Midler's New York Restoration Project where he cared for the parklands in northern Manhattan. Brad has a B.A. from New College of the University of South Florida. He also volunteers his time with the San Antonio Audubon Society where he is a tour leader.

**Share some scary plant and herbal
information with the
San Antonio Herb Society on
October 9th - and bring a friend!**

The meeting is on **Thursday, October 9th, 2008**. The program will begin at 7:00 (with refreshments served beginning at 6:30) at the **San Antonio Garden Center**, located on the corner of Funston and N. New Braunfels. The meeting is **free and open to the public**. For more information, check out our web site at www.sanantonioherbs.org
